## Fagor Launches New Dessert Kit for Pressure Cookers

Dessert in a pressure cooker? Yes, it's true! Often, people are fascinated to learn that pressure cookers are not only fantastic tools for preparing fast, easy & healthy meals in a fraction of the time used towards traditional cooking methods (up to 70% less), but are also equally useful tools in preparing a wide variety of foods. Accessories make your Fagor pressure cooker a very adaptable kitchen tool - allowing for much more menu flexibility than meets the eye.

Most cooks know that nothing is better than a pressure cooker for preparing succulent meats, savory stews and soups. They're also a coveted piece of equipment for cooking beans and grains super fast without any pre-soaking involved. But, beyond these basics, is the 'secret' that pressure cookers are excellent tools for preparing desserts. Due to the moderate internal temperature and constant steam regulation, pressure cookers create the perfect internal environment for producing wonderfully creamy desserts.

Fagor has recently introduced, to their line of accessories, a nine piece Dessert Kit. The dessert kit allows you to make the most delicious puddings, flan, custards, rich sauces, crème brûlée and even cheesecakes in your Fagor Pressure Cooker! It includes a bilingual English/Spanish recipe book with original dessert recipes, an 8" diameter silicone baking dish, stainless steel baking dish support rack, 4 individual portion silicone custard cups, a silicone lid and a silicone spatula.

"This dessert kit is a testament to the versatility of Pressure Cookers. It's the ultimate accessory for preparing gourmet desserts and there's nothing better than being able to make a rich, creamy cheesecake without turning on an oven

in the hot summer months!" said Sara Delahera, VP of Sales & Marketing - Fagor America.

Fagor also offers a variety of other accessories such as the 7 piece home canning kit, cookbooks, glass lids and timers. All used to enhance the uses for this already invaluable tool.
