What's Hot in Pressure Cooking? Fagor's New "Futuro" Line

Futuro, an innovative new line of pressure cookers by Fagor, is undoubtedly one of the most versatile and timesaving tools you can have on hand in your kitchen. Fagor pressure cookers are not only fantastic tools for preparing fast, easy & healthy meals in a fraction of the time used towards traditional cooking methods (up to 70% less), but are also equally useful tools in preparing a wide variety of foods.

When it comes to pressure cooking, most people who've tried one know that nothing is better than a Fagor pressure cooker for preparing comfort foods such as tender meats, savory stews and hearty soups. What's more is that they're also a coveted piece of equipment for following a sensible low-fat diet plan. Steam veggies in a flash or cook beans and grains super fast with little or no pre-soaking involved. A staple in many ethnic cuisines; pressure cookers are commonly used for preparing the most succulent regional dishes. Finally, who knew desserts were on the menu as well? Pressure cookers are fantastic vessels for making puddings, custards and even cheesecake!

Futuro pressure cookers are constructed of the finest quality 18/10 Stainless Steel. Equipped with every desirable safety and user-friendly feature, Futuro represents the most cutting edge evolution of pressure cookers.

"Futuro truly is the culmination of all the latest advances to the modern-day pressure cooker," said Sara Delahera, VP of Sales & Marketing - Fagor America.

Futuro pressure cookers feature short side handles for enhanced space saving capability, an easy-cleaning auto pressure release valve which reduces food particle build up, a visual pressure indicator, automatic pressure release system and a no-hassle self locking mechanism.

Futuro cookers are made in Spain and are available in 4, 6, 10 qt and a 6 piece set combination. The 6 piece set includes: 4 & 6 qt nesting pots, pressure cooker lid & tempered glass lid (fits both pots), stainless steel steamer basket/food grater and "Tastefully Under Pressure" recipe book. *The unique design of the 6 qt pot includes an inner ridge to rest the steamer basket, which allows the user to cook two dishes at the same time!*

Futuro pressure cookers are U.L. listed, come with a 10 year warranty, detailed user's manual, color recipe book, stainless steel steamer basket/food grater and are safe on all domestic cooking surfaces.

Fagor also offers a variety of other products such as commercial specialty cookware, cookbooks and accessories. Read more about Fagor products at www.fagoramerica.com.

About Fagor: Fagor America Inc, headquartered in Lyndhurst, NJ, USA is a wholly owned subsidiary of Fagor Electrodomesticos, Spain. Fagor is currently present in 100 countries, employs more than 12,000 people in 17 countries and operates 16 factories in 3 continents.

The Fagor brand name has been previously most visible in the United States since 1992 with high-quality stainless steel cookware as the core product offering, Fagor is currently positioned as a top cookware brand, sold at major retailers nationwide. Fagor America products can be found at Macy's, Bloomingdale's, Bed Bath & Beyond, Linens 'n Things, Sur La Table, Cooking.com, Amazon.com and many other department, housewares, specialty stores, direct mail and home shopping clubs.

Fagor has upheld major appliance private label operations in the US since 2001. In 2005, Fagor America Appliances Division was created, anticipating that US consumers will perceive the quality of products and category expertise that Fagor has to offer.
