## **FAGOR INTRODUCES 24" CONVECTION OVEN**

**Lyndhurst, NJ**—Fagor America, Inc. is a wholly owned subsidiary of Fagor Electrodomesticos. Based in Spain, Fagor is the fifth largest appliance manufacturer in Europe, the leading appliance manufacturer in both Spain and France, and the top built-in induction cooktop manufacturer in the world. The Fagor brand is currently present in 100 countries, employs more than 12,000 people in 17 countries and operates 16 factories in 3 continents.

Fagor has recently introduced a 24 inch European Convection Wall Oven to the appliance line. The oven features a Stainless Steel finish with illuminated retractable controls, and 8 cooking programs with a digital display panel. It also has a ventilated steam outlet and child safety lock on the door. It is a U.L listed appliance.

In addition to these basics, the oven also boasts some major characteristics that make for a superior cooking experience:

**Gourmet European Convection System.** This system features a third heating element that surrounds the two-speed fan at the back of the oven, circulating pre-heated air around the oven. This allows a more even distribution of heat, thus faster cooking and no intermingling of flavors when cooking a variety of foods at once. It especially excels at searing, roasting, soufflés, and rapid reheating. Also ideal for broiling perfect steaks and producing uniformly browned baked goods.

**Convection defrosting.** The defrosting function can be used to thaw any type of frozen food in a minimal amount of time.

**Celeris (fast preheat).** If a dish requires the oven to be pre-heated, nothing faster than the Celeris program. It will reach 400F in less than 5 minutes.

Patricio Barriga, a Housewares Industry Veteran and President of Fagor America Inc., said "This wall oven is the perfect compliment to homes that entertain often.

Thanks to its powerful convection system, heat circulates quickly throughout the oven for consistent temperature and superior results. “

This 24” unit is currently offered for a quite competitive SRP of \$699.99.

**About Fagor:**

The Fagor brand name has been previously most visible in the US since 1992 with high-quality stainless steel cookware as the core product offering. Fagor is currently positioned as a top cookware brand, sold at major retailers nationwide. Fagor America Inc, headquartered in Lyndhurst, NJ, USA is a wholly owned subsidiary of Fagor Electrodomesticos.
