FOR IMMEDIATE RELEASE

Fagor America Introduces Built-In Coffee Machine

Lyndhurst, NJ - Fagor America is introducing a built-in coffee machine to their line of high performance appliances. This new coffee machine provides convenience, ease of operation and versatility for the most discerning coffee connoisseur.

This built-in coffee machine will bring the rich authentic flavors of café brewed coffee to your kitchen. Impress guests with delicious European style espresso or cappuccino made with a touch of the button!

This intelligent unit provides the option to select from weak, medium or strong coffee to suit your preference. In addition, it can prepare up to two cups at once for added convenience without any compromise of flavor.

A frothing mechanism delivers steam, allowing you to quickly heat milk to give your coffee an exquisite creamy texture. For those with a preference for tea, this dispenser can also provide a simple cup of hot water.

The unit regulates the temperature of water and steam, the amount of water used to brew and how finely the coffee is ground. It also has a 0.66 gallon water tank capacity and holds 10.5 ounces of coffee. The unit offers the flexibility of either being conveniently hooked up to a main water source, or can be manually refilled.

A multilingual display panel allows you to easily select from 5 different languages: English, Spanish, Italian, German and French. Fully electronic programming allows for simple

operation. In addition, it warns you when the water tank or coffee container is empty. It is also equipped with an energy saving sleep mode.

Its built in style allows this unit to be installed at the optimal height for visibility and accessibility.

Suggested Retail Price for the coffee machine is \$2499.00 USD.
